Kannan Matriculation High School,
Cuddalore, Tamilnadu
Elementary (Primary)

Summary

Scan to view online

A hard worker passionate about web designing, online publishing, blog writing, code programming, SEO, digital marketing, and framework development.

I started on my journey in web designing in 2008, exploring various web 2.0 platforms, and later delved into code programming in 2014. Since then, I have witnessed the evolution of several open-source libraries, tools, themes, templates, datasets, plugins, widgets, and frameworks for web development.

Along the path of honing my skills and knowledge, I have also undertaken numerous freelance projects, including WordPress sites, SEO, digital marketing, and web-related products.

Thanking you,

Selvakumaran Krishnan
